Professional Profile

Transformation leader driving impact at the intersection of technology, people, and purpose. Proven track record in consulting, innovation, and education across Latin America, the United Kingdom, and the United States. Skilled in translating complex organizational challenges into clear decisions, actionable strategies, and scalable capability-building programs. Combines rigorous research and analysis with implementation-ready roadmaps, stakeholder alignment, and responsible technological tools to reduce friction and enhance accountability.

Leads *Beautiful Patterns*, an MIT-originated initiative advancing women's participation in STEM, reaching over 4,000 learners across Latin America. Committed to delivering equitable, measurable outcomes through systems-level thinking and cross-sector collaboration.

Work Experience

NOTTINGHAM BUSINESS SCHOOL, CONSULTING PROGRAM

Project Lead and Senior Consultant

February 2025 to July 2025

Led three consulting engagements across education, logistics, and technology as the project lead, owning client communication and delivery. Mentored peers on consulting methods and sector context while producing organizational transformation, cultural change management, and strategic alignment proposals.

Cultural Transformation Diagnosis, Technology Distribution and Apple Partner, United Kingdom

- Diagnosed cultural and operational barriers limiting the adoption of inclusion and sustainability commitments through on-site immersion and interviews across teams. Built an implementation-ready change management roadmap across leadership behaviors, communications, and incentives, co designed with the executive board, including the CSO and the CHRO.

Workforce and Process Transition Strategy, Transportation and Logistics, Hungary

- Conducted on-site operational, culture and sector research with frontline teams at the dock to understand frontline realities and retirement risk. Partnered with the Operations Director, HR Director, and Board to design a Lean Six Sigma knowledge transfer and workforce transition plan.

Strategic Planning, Education and Coaching, United Kingdom

- Built a three-year strategic plan (2025 to 2028) for a women-led small business, defining positioning, audience segmentation, growth priorities, and restructuring pillar objectives to support expansion while protecting the core mission of helping women design lives on their own terms.

OPINNO, GLOBAL OPEN INNOVATION CONSULTING FIRM

Led organizational transformation and change engagements across Latin America, partnering with C-level leaders to diagnose culture and execution gaps and translate findings into operating model, governance, and value chain improvements. Combined analytical rigor with human-centered transformation, translating complex system dynamics into actionable and strategic decision-making.

Served as a methodological advisor across Corporate Transformation business line, coaching consulting teams on change management, agility, and AI-enabled delivery practices.

Transformation Expert

March 2025 to October 2025

Agility Training, Manufacturing and Chemicals, US and Mexico

- Diagnosed cultural and operational barriers limiting the adoption of inclusion and sustainability commitments through on-site immersion and interviews across teams. Built an implementation-ready change management roadmap across leadership behaviors, communications, and incentives, co designed with the executive board, including the CSO and the CHRO.

Process Automation, Aviation and Infrastructure, Colombia

- Developed five Copilot-powered recruitment intelligence agents in their prototype and pilot phases, reducing manual candidate screening and enabling data-driven talent decisions aligned with ethical standards.

Senior Agile Consultant

November 2022 to August 2024

- Served as one of the Agility and Change Management subject-matter leads in three flagship transformation bids against top consulting firms, shaping the approach and presenting to client stakeholders.
- Co-designed AI-driven services portfolio, producing a ready-to-sell catalog with client profiles and use cases to support commercial teams.
- Led delivery design for 30+ client proposals across transformation, PMO and APMO setup, process engineering, leadership development, strategic planning, and generative AI solutions.
- Designed 10+ training programs on innovation methods, Agility, and Agile delivery, creating facilitator guides, exercises, and workshop assets; recorded two programs for client learning platforms to support adoption at scale.
- Prototyped internal AI agents to reduce manual effort in operational workflows, including proposals, interviews, and collections.
- Mentored 100+ professionals across 10 Agile teams through structured coaching and capability programs, strengthening leadership consistency and cross-team coordination.
- Coached 7+ Agile delivery cells across multiple sectors, supporting digital and innovation teams to improve execution, collaboration, and delivery cadence.

- Cultural and Leadership Transformation, Banking, Central America
Designed and delivered a regional Change Management roadmap for a leading Central American bank to align leadership and scale consistent ways of working across six countries.
- Governance and Change Enablement, Financial Services, Mexico
Established the Digital Transformation Office for the insurance arm of Mexico's largest bank to strengthen governance, execution discipline, and cross-department delivery.
- Methodological and Analytical Research Publication, Consulting, Latin America
Co-led the MIT Technology Review in Spanish and NTT DATA research partnership to produce the Agility in Latin America 2024 Report, a regional benchmark used by leaders to guide Agile transformation decisions.
 - Designed the research approach and interview guide, and conducted executive interviews in Spanish and Portuguese with C-level transformation leaders.
 - Analyzed qualitative findings, synthesized cross-market insights, and translated evidence into clear, decision-ready narratives for publication.
 - Supported the end-to-end editorial process, ensuring analytical rigor, clarity, and relevance for senior audiences.

Social Impact and Volunteering Experience

- BEAUTIFUL PATTERNS, MIT initiative that seeks solutions to the complex sociotechnical challenge of women in STEM education.
- Managing Director, previously Communciation Lead**
Leads strategy and delivery for a multi campus program that builds confidence and pathways in computing through rigorous instruction, mentorship, and evidence based teaching.
- Own program strategy and execution across partners, including cohort planning, delivery timelines, and stakeholder coordination.
 - Lead curriculum and quality, course design, instructional standards, and continuous improvement based on learner feedback and outcomes.
 - Build and manage the academic team, including instructor and teaching assistant selection, onboarding, training, and coaching to ensure consistent delivery.
 - Drive impact measurement and reporting, tracking participation and learning outcomes to improve program quality and partner decisions.
 - Established key university partnerships including Tecnológico de Monterrey and Universidad Panamericana to deliver bootcamps and scale delivery capacity.
 - Built the program communication engine across social platforms, strengthening outreach and supporting cohort recruitment.
- ASSOCIATION FOR COMPUTING MACHINERY (ACM)
- Co-founder, leader and member**
- Co-founded and served as Chair of the ACM women professional chapter in Mexico City from 2024 to 2025. Continues as a member.
 - Co-founded and served as Vice-Chair of the ACM women student chapter in the Universidad Panamericana campus in Mexico City 2020-2021, establishing the first ACM-W student chapter in Latin America.
 - Recognized by ACM Student Chapter Excellence Awards for Outstanding School Service in its first year.
