

CAROLINA BARREIRO VALDEZ

Transformation and Change Management Expert | EdTech Impact Leader | MBA
linkedin.com/in/carobarreirov | caro.barreiro.v@gmail.com | carobarreirov.github.io

International experience across LATAM, US and Europe

Languages: Spanish (native), English (working professional proficiency), French (elementary proficiency)

PROFESSIONAL SUMMARY

Transformation leader who connects technology, people, and purpose to help teams deliver change that holds in the real world. Her work spans consulting, innovation, and education across different geographies and sectors, translating complex organizational realities into clear decisions, practical roadmaps, and capability building that improves how people work together.

Her work blends rigorous research and analysis with implementation-ready roadmaps, stakeholder alignment, and responsible AI-enabled tools to reduce operational friction and strengthen accountability. She also leads Beautiful Patterns, an MIT initiative advancing women in STEM that has reached more than 4,000 learners, and she is committed to building equitable, measurable impact at the intersection of education and technology.

CONSULTING EXPERIENCE

NOTTINGHAM BUSINESS SCHOOL, CONSULTING PROGRAM
United Kingdom and Hungary

Project Lead and Senior Consultant

Feb 2025 to July 2025

Led three consulting engagements across education, logistics, and technology as the project lead, owning client communication and delivery. Mentored peers on consulting methods and sector context while producing organizational transformation, cultural change management, and strategic alignment proposals.

Cultural Transformation Diagnosis, Technology Distribution and Apple Partner, United Kingdom

Diagnosed cultural and operational barriers limiting the adoption of inclusion and sustainability commitments through on-site immersion and interviews across teams. Built an implementation-ready change management roadmap across leadership behaviors, communications, and incentives, co designed with the executive board, including the CSO and the CHRO.

Workforce and Process Transition Strategy, Transportation and Logistics, Hungary

Conducted on-site operational, culture and sector research with frontline teams at the dock to understand frontline realities and retirement risk. Partnered with the Operations Director, HR Director, and Board to design a Lean Six Sigma knowledge transfer and workforce transition plan. Delivered a Visual Factory approach and clear process visuals that made priorities, ownership, and next steps easy to execute.

Strategic Planning, Education and Coaching, United Kingdom

Built a three-year strategic plan (2025 to 2028) for a women-led small business, defining positioning, audience segmentation, growth priorities, and restructuring pillar objectives to support expansion while protecting the core mission of helping women design lives on their own terms.

Led organizational transformation and change engagements across Latin America, partnering with C-level leaders to diagnose culture and execution gaps and translate findings into operating model, governance, and value chain improvements. Combined analytical rigor with human-centered transformation, translating complex system dynamics into actionable and strategic decision-making.

Served as a methodological advisor across Corporate Transformation business line, coaching consulting teams on change management, agility, and AI-enabled delivery practices.

Transformation Expert

March 2025 to October 2025

Agility Training, Manufacturing and Chemicals, US and Mexico

Designed and delivered a leadership and agility training program for production and management teams, improving cross-functional collaboration and accelerating decision cycles.

Process Automation, Manufacturing, Mexico

Built an AI enabled process documentation assistant using Microsoft 365 Copilot and Power Automate to reduce reporting time and improve accuracy of compliance documentation across operations and quality.

Process Automation, Aviation and Infrastructure, Colombia

Developed five Copilot-powered recruitment intelligence agents in their prototype and pilot phases, reducing manual candidate screening and enabling data-driven talent decisions aligned with ethical standards.

Senior Agile Consultant (Promoted from Agile Consultant, May 2023)

November 2022 to August 2024

Firmwide Contributions:

- Served as one of the Agility and Change Management subject-matter leads in three flagship transformation bids against top consulting firms, shaping the approach and presenting to client stakeholders.
- Co-designed Opinno's AI-driven services portfolio, producing a ready-to-sell catalog with client profiles and use cases to support commercial teams.
- Led delivery design for 30+ client proposals across transformation, PMO and APMO setup, process engineering, leadership development, strategic planning, and generative AI solutions.
- Designed 10+ training programs on innovation methods, Agility, and Agile delivery, creating facilitator guides, exercises, and workshop assets; recorded two programs for client learning platforms to support adoption at scale.
- Built an AI assistant for interview notes and process mapping to reduce repetitive consultant tasks and improve consistency of documentation.
- Prototyped internal AI agents to reduce manual effort in operational workflows, including finance, taxes, and collections.
- Mentored 100+ professionals across 10 Agile teams through structured coaching and capability programs, strengthening leadership consistency and cross-team coordination.
- Coached 7+ Agile delivery cells across multiple sectors, supporting digital and innovation teams to improve execution, collaboration, and delivery cadence.

Cultural and Leadership Transformation, Banking, Central America

Designed and delivered a regional Change Management roadmap for a leading Central American bank to align leadership and scale consistent ways of working across six countries.

- Built an Agile governance model that clarified decision rights, escalation paths, and cross-functional coordination while integrating with existing structures.
- Developed and delivered leadership training and enablement to support adoption across regional departments and executive stakeholders.
- Strengthened C-level alignment and collaboration across countries, accelerating decision-making and improving operational execution cadence.

Process Reengineering and Value Flow Diagnostics, Banking, Central America

Led a department-wide process and operating model redesign for a leading Central American bank to reduce complexity and improve service delivery.

- Mapped end-to-end value flows and key customer-facing processes to identify redundancies, bottlenecks, and unclear handoffs across teams.
- Redesigned the bank's largest department structure and core workflows, integrating Lean and Agile principles to simplify execution and strengthen cross-team coordination.
- Delivered a restructuring and implementation plan that improved functional productivity by over 25% and increased speed and reliability of service delivery.

Governance and Change Enablement, Financial Services, Mexico

Established the Digital Transformation Office for the insurance arm of Mexico's largest bank to strengthen governance, execution discipline, and cross-department delivery.

- Designed the operating model, roles, and governance mechanisms, including decision rights, prioritization routines, and accountability practices.
- Defined the integration approach across business and technology teams to improve coordination and enable sustained change.
- Strengthened cross-department collaboration and accelerated delivery of digital service initiatives through clearer ownership and execution cadence.

Organizational Process Mapping, Reengineering and Optimization, Manufacturing, Mexico

Led a cross-department process mapping and redesign effort to create a single operational baseline and an execution-ready roadmap for improvement and automation.

- Ran interviews and document reviews across seven departments to capture workflows, handoffs, decision points, and controls, consolidating them into one end-to-end *as-is* process map.
- Identified bottlenecks, rework loops, and inconsistencies, translating findings into a clear list of improvement opportunities tied to operational and compliance needs.
- Co-designed the *to-be* process model with Process and Quality leaders, defining the future workflow, ownership, and documentation requirements.
- Built a prioritized roadmap for optimization and automation, clarifying scope, sequencing, quick wins, and dependencies to support implementation.

Methodological and Analytical Research Publication, Consulting, Latin America

Co-led the MIT Technology Review in Spanish and NTT DATA research partnership to produce the Agility in Latin America 2024 Report, a regional benchmark used by leaders to guide Agile transformation decisions.

- Designed the research approach and interview guide, and conducted executive interviews in Spanish and Portuguese with C-level transformation leaders.

- Analyzed qualitative findings, synthesized cross-market insights, and translated evidence into clear, decision-ready narratives for publication.
- Supported the end-to-end editorial process, ensuring analytical rigor, clarity, and relevance for senior audiences.

IT PROGRAM AND PROJECT MANAGEMENT EXPERIENCE

RED HAT, LATIN AMERICAN ENABLEMENT TEAM

Mexico City, Mexico

Agile Program Manager; transitioned from Solution Architect in July 2022)

October 2020 to November 2022

Designed and delivered Agility enablement programs to support adoption and execution across regional teams.

- Built and launched gamified Agile training that shifted ways of working across cross functional teams in Latin America.
- Delivered coaching and workshops that increased adoption of new tools and expanded Business Agility initiatives.
- Contributed to Communities of Practice including Open Agile Practices, Women in Technology, and Project and Program Management.
- Exceeded required learning units by more than 25 percent per quarter, demonstrating consistent professional development discipline.

ITERANDO, TECHNOLOGY SOLUTIONS STARTUP

Mexico City, Mexico

Lead Project Manager

January 2020 to July 2021

- Led the organization's Agile transition, building feedback loops, communication routines, and change management practices to improve delivery reliability.
- Delivered Scrum training across the organization and achieved a 100 percent certification rate.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY (MIT), SCHOOL OF ENGINEERING

Cambridge, MA

Visiting Research Fellow

June 2019 to August 2019

Research Assistant to Dr. Abel Sánchez, supporting technology strategy, innovation management, and software development applied to education initiatives, including Beautiful Patterns.

PIXFRAME STUDIOS AND NYX TECHNOLOGY SOLUTIONS, EDTECH SOFTWARE DEVELOPMENT STARTUPS

Mexico City, Mexico

Project Manager

November 2018 to June 2019

- Managed delivery of education technology products for national education stakeholders, including Tripulantes de la lectura for Mexico's Secretariat of Public Education.
- Applied Agile delivery practices to strengthen planning, execution, and collaboration across teams, supporting future international initiatives including United Nations supported work.

SOCIAL IMPACT AND VOLUNTEERING EXPERIENCE

BEAUTIFUL PATTERNS, MIT initiative that seeks solutions to the complex sociotechnical challenge of women in STEM education.
Remote, Latin American team

Managing Director; promoted from Communication Lead in January 2022

January 2021 to present

Leads strategy and delivery for a multi campus program that builds confidence and pathways in computing through rigorous instruction, mentorship, and evidence based teaching.

- Own program strategy and execution across partners and campuses, including cohort planning, delivery timelines, and stakeholder coordination.
- Lead curriculum and quality, including course design, instructional standards, and continuous improvement based on learner feedback and outcomes.
- Build and manage the academic team, including instructor and teaching assistant selection, onboarding, training, and coaching to ensure consistent delivery.
- Drive impact measurement and reporting, tracking participation and learning outcomes to improve program quality and partner decisions.
- Established key university partnerships including Tec de Monterrey and Universidad Panamericana to deliver bootcamps and scale delivery capacity.
- Built the program communication engine across social platforms, strengthening outreach and supporting cohort recruitment.

ASSOCIATION FOR COMPUTING MACHINERY (ACM)

Leader and member

September 2020 to March 2025

MEXICO CITY ACM-W

- Co-founded and served as Chair of the ACM women professional chapter in Mexico City.

UNIVERSIDAD PANAMERICANA ACM-W

- Co-founded and served as Vice-Chair of the ACM women student chapter in the Universidad Panamericana campus in Mexico City, establishing the first ACM-W student chapter in Latin America.
- Recognized by ACM Student Chapter Excellence Awards for Outstanding School Service in its first year.

TEACHING EXPERIENCE

EMERITUS, GLOBAL AND LATIN AMERICA TEAMS

Remote, Global team

Course Leader and Learning Facilitator, MIT xPro Coding Certificate: Full Stack with MERN

April 2021 to July 2024

- Supported over 170 professionals across seven cohorts in a 32 week MIT xPro program, achieving an NPS of 9.
- Created and launched 30 plus new chapters and learning resources, including content on technology management.
- Delivered bilingual facilitation to support diverse learner needs across global cohorts.

UBITS, CORPORATE LEARNING PLATFORM IN LATIN AMERICA

Remote, Latin American team

Academic and Industry Expert, Technology and Digital Academy

May 2022 to June 2024

Authored 10 plus hours of curriculum for IT and Software and Product Management academies and set quality standards for course delivery.

BEAUTIFUL PATTERNS, MIT initiative that seeks solutions to the complex sociotechnical challenge of women in STEM education.

Remote, Latin American team

Lead Instructor, promoted from Teaching Assistant in January 2019

May 2018 to August 2022

- Delivered 50+ instructional hours and mentorship, expanding access to STEM learning for 100+ Hispanic and Latin American women through community based learning.
- Supported the rollout of multiple course offerings through the program platform, strengthening learner experience and instructional consistency.

EDUCATION

NOTTINGHAM TRENT UNIVERSITY
Nottingham, United Kingdom
2024 – 2025

Master of Business Administration, Agile Leadership and Transformation, with distinction

Grade (UK) 13.9 out of 16

- Business research project (Dissertation) on “Agility as Lived Philosophy: Leadership, Culture and Constraint in Mexican EdTech.”

MIT PROFESSIONAL EDUCATION
Online Program
2020

Certificate, Cloud and DevOps

Certificate, Leading Digital Transformation

UNIVERSIDAD PANAMERICANA
Mexico City, Mexico
2016 – 2021

Postgraduate Specialization, Engineering and Project Management, magna cum laude

GPA 3.67/4.0

- Directed the Project Management department at the Person-Computer Interaction Laboratory for serious video games, designed and implemented their first organizational structure, processes, and communication system.

Bachelor of Engineering, Digital Animation Engineering, summa cum laude

GPA 3.9/4.00

- Studied abroad at DePaul University in Chicago: data science, networking and cybersecurity, and user experience design.
- National Society of Leadership and Success (NSLS) member.
- Served as Vice President for the Engineering Student Council (2018 – 2019), established a lasting organizational framework by decentralizing authority, which enhanced operational efficiency and expanded the council's influence within the academic community, a structure that remains effective today.
